

Mammoth® Lifetime warranty

Mammoth® Polyester Insulation

nZone Industries Holdings Limited (**InZone**) manufactures Mammoth® 100% polyester insulation products (**Mammoth**) in New Zealand and are designed to provide long-lasting, durable thermal and acoustic insulation.

InZone warrants that, provided Mammoth is:

- installed in accordance with the installation standard NZ4246: Energy Efficiency - Installing insulation in residential buildings; and
- remains adequately protected,

Mammoth will perform for the Lifetime of the building in which it is installed (**Warranty**).

For the purposes of the Warranty, the **Lifetime** of a building means the useful or serviceable duration of a building constructed in accordance with the Building Act 2004 and relevant regulations.

The Warranty covers:

- insulation material durability when installed in residential buildings; and
- applies only to 100% polyester products manufactured by InZone and not composite products which incorporate InZone polyester products.

The Warranty does not cover:

- deterioration due to normal wear and tear; or
- faults or damage due to misuse, negligence, accident or any other cause other than normal reasonable use.

InZone is not liable for claims arising due to poor installation, design, structural movement or other building movement.

InZone's obligations under the Warranty extend to the repair or replacement of defective product and, subject to any rights a consumer may have under applicable consumer protection law, under no circumstances whatsoever shall it be liable for indirect, special or consequential loss occasioned through any defect in the product.

Nothing in the Warranty limits any rights a consumer may have under applicable consumer protection law.
