

Wall Insulation Sections

Mammoth wall sections are semi-rigid polyester insulation designed to be friction fitted into the wall cavity.

Creating a seamless, smooth fit without tucks, creases or gaps, Mammoth® wall sections provide both thermal and acoustic benefits for homes and buildings. Mammoth wall sections are made on New Zealand's only airlay insulation plant - accept no substitutes. Mammoth products contain recycled polyester fibres. Mammoth wall section insulation uses up to 15,600 recycled PET plastic bottles per 100sqm*.

For walls requiring roll form insulation, there is the option of our [Mammoth Wall Blanket](#) or for masonry or concrete walls, we have the option of our [Masonry Insulation](#).
